4. **Certification of Compliance.** Expenditure of the funds appropriated herein above is contingent upon annual certification by the chancellor of the Texas State Technical College to the Comptroller of Public Accounts that the Texas State Technical College is in compliance with these provisions regarding budgets, accounting procedures and enrollment.
5. **Approved Geographic Locations.** None of the funds appropriated above to the Texas State Technical College shall be expended in promoting, developing or creating a campus or extension center at any other location in the state except as specified in Education Code §135.02.
6. **Temporary Special Courses.** Out of funds appropriated herein above to the Texas State Technical College in pre-apprenticeship, related training for apprentices and specialized training for journeymen and compensatory training for pre-apprenticeship and apprenticeship enrollees, and plant expansion and new plant start-up training program no more than \$50,000 per year may be spent wherever the need exists within the state in conjunction with curriculum approval by the Texas Higher Education Coordinating Board. Such expenditure of funds for these special courses are temporary in nature and outside the provision of Education Code §135.04.
7. **Aircraft Pilot Training Programs.** Funds may be used for the operation, maintenance or lease of aircraft for use in the Aircraft Pilot Training programs subject to the requirement that excess costs of flight instruction be recovered by an assessment of charge to student pilots. This income shall be separately accounted for and credited as a reduction in expenditure in the Aircraft Pilot Training Program.
8. **Approval of Plans by Foundations.** Any use of the Texas State Technical College's assets or facilities including, but not limited to, buildings, equipment or employees by existing foundations or for the promotion of foundations shall require prior approval of the Board of Regents. Approval is contingent upon receipt by the Board of Regents of a satisfactory annual plan of operation. At a minimum, this plan must specify the proposed use of any Texas State Technical College facilities, equipment, and personnel; payments made directly to Texas State Technical College personnel for services provided or expenses incurred; and donations of funds to the Texas State Technical College for designated purposes. All funds donated by foundations to the Texas State Technical College shall be received and accounted for in the same manner as all other Texas State Technical College funds. After Board of Regents approval, the plan shall be filed with the Legislative Budget Board.
9. **Campus President Salaries.** Out of the funds appropriated to each campus of Texas State Technical College, an amount not to exceed \$63,654 in 2016 and \$63,654 in 2017 may be expended for the salary of a president. All presidents may receive in addition to the above amounts a house, utilities, and/or supplement from private sources. If an institutionally owned house is not available an amount not to exceed \$7,200 per year from the appropriations above, and additional funds from gifts and grants where required, may be provided in lieu of house and utilities.
10. **Chancellor Salary.** Out of the funds appropriated, transferred, or contracted to the system office, an amount not to exceed \$70,231 in 2016 and \$70,231 in 2017 may be expended for the salary of a chancellor. The chancellor may receive in addition to the above amount a house, utilities, and/or supplement from private sources. If a system owned house is not available an amount not to exceed \$7,200 per year from the system office appropriation and additional funds from gifts and grants where required, may be provided in lieu of house and utilities.
11. **Returned Value Funding Model for Texas State Technical Colleges.** Funding is recommended for and allocated among Texas State Technical Colleges (TSTCs) based on the additional direct and indirect state tax revenues generated as a result of the education provided to students by the

**SPECIAL PROVISIONS RELATING ONLY TO COMPONENTS OF TEXAS STATE  
TECHNICAL COLLEGE**

TSTCs. The funding methodology is based on the following components:

- a. The model includes the cohort of TSTC graduates (earning an associate's degrees or certificate), transfers, and leavers (students who were not found in Texas higher education for two years following the last time they were enrolled in the TSTC) with a minimum completion of nine semester credit hours from 2008 and 2009.
- b. The cohorts were matched with Unemployment Insurance wage records for employment and wage information for five years after the students graduated from or left the TSTC to establish annual wages for each student. Direct value-added was defined as the incremental state tax revenue attributable to former TSTC students' jobs, based on the difference between former TSTC students' annual wages and a base wage representing a full-time employee earning minimum wage (7 percent of the wage delta). Indirect value-added was defined as the direct value-added multiplied by 1.5, an economic multiplier derived from a U.S. Bureau of Economic Analysis study. Total direct and indirect values-added were summed for each group of students by campus across five years.
- c. Values-added were reduced by a certain percentage, based on the assumption that the benefits would accrue both to the state and TSTCs but with only a portion of the added value included in the formula calculations.
- d. Values-added by campus were divided into the total TSTC value added to define each institution's proportional share of overall formula funding.

The Texas State Technical College System shall continue to work with the Texas Higher Education Coordinating Board, the Legislative Budget Board and other relevant agencies to refine the new Returned Value Funding Formula for the TSTCs. It is the intent of the Legislature that recommended adjustments to the formula shall be ready for implementation in the 2018-19 biennium and shall further the goal of rewarding job placement and graduate earnings projections, not time in training or contact hours.

2. **Clearing Accounts.** At their option, the institutions may use their local depository bank account in lieu of the special clearing account, authorized by Education Code, §51.008(b), provided that the general requirements set out in therein, for deposits and transfers to the state treasury, are complied with.
3. **Revolving Funds.**
  - a. Each institution affected by this section, at its option, is hereby authorized to maintain a revolving fund to facilitate the payment of nominal expenses and to pay bills within cash discount periods. The institutions may use the revolving fund for regular monthly payrolls as well as for weekly and special payrolls. Disbursements from the revolving funds are to be reimbursed from respective items of educational and general appropriation made herein, the Comptroller of Public Accounts being hereby authorized to make such reimbursements on claims filed with her by the institutions under her regularly prescribed procedures except that one voucher and one warrant may cover any number of claims for this purpose. These reimbursement claims shall meet the same requirements as other claims against state appropriations, and each institution shall prepare such a reimbursement claim as at the close of business on the last day of each month and as many times during the month as may be expedient in order to make unnecessary the maintaining of an unreasonably large revolving fund.
  - b. The respective governing board shall determine the amounts of the revolving funds to be set up for each institution, and may increase or decrease the amounts if necessary. Such governing board shall designate a depository bank for each revolving fund, and shall specify the officers and/or employees to sign checks drawn on each such fund. The depository bank for each revolving fund shall be required to secure the deposit as provided by law.
  - c. Appropriations to all institutions of higher education and systems, except funds identified exclusively for salaries, may be used to reimburse any revolving fund operated for the benefit of one or more parts or component units of an institution or system, such as a motor pool for managing automotive vehicles authorized by this Act, a feed supply center, an office supply or laboratory supply center, a computer center, or any other operations of a similar nature established by authority of the governing board of said institution or system.
4. **Local Depositories.** The governing boards of the respective institutions for which appropriations are made in this Article are hereby authorized to select depository banks for the safekeeping of funds which are authorized, by statute, to be maintained outside the state treasury. The boards shall require depository banks to furnish adequate surety bonds or securities to be posted for the assurance of safety of such deposits. The depository bank or banks so selected are hereby authorized to pledge their securities for assurance of safety for such funds. All such local funds shall be deposited in these depositories within seven (7) days from date of collection. The governing boards may require the depository so designated and selected to pay interest on deposits at a rate to be agreed upon by said depositories and said boards.
5. **Investment Reports.**
  - a. The governing board of each of the educational institutions named in this Article shall file with the State Auditor, Comptroller of Public Accounts, Legislative Budget Board, and the Governor an annual report of all investment transactions involving endowment funds, short-term and long-term investment funds, and all other securities transactions, in a method prescribed by the State Auditor's Office. Copies of such reports shall be available for public inspection. In addition to the annual report, each institution shall publish and maintain on its website for at least two years quarterly investment reports in any format it deems appropriate.
  - b. The governing boards of each educational institution named in this Article must adopt formal investment policies. Each governing board shall submit to the Legislative Budget Board and State Auditor's Office a copy of their investment policy by December 31 of each year.

6. **Central Services Accounts.**

- a. Out of funds appropriated in this Article, the governing boards of the university systems and their component units, and institutions of higher education may employ persons to serve two or more parts or component units of the system or institution and may pay their salaries in whole or in part from the informational items of appropriation made herein to any component unit. The governing boards are authorized to establish accounts from which salaries and expenses for the administration and supervision of the units of the system or institution may be paid and to require the units, including any other agency the administration of which it may be charged with by law, to pay into this account from any general revenue, local, or institutional funds their proportionate share as determined by the board for the expense of such administration and supervision. The Comptroller of Public Accounts is authorized to set up an account for each of the systems or institutions and to deposit in the account funds to the amount authorized by the governing boards and executive heads of the respective units, from funds appropriated by the Legislature to the units for noninstructional salaries and general operating expenses. The Comptroller is authorized to draw warrants against such accounts based on vouchers submitted by the systems or institutions in payment of salaries, maintenance, equipment, or travel incidental to the administration and supervision of the respective units.
- b. The systems and institutions whose governing boards and component units are subject to the above are authorized to establish the following accounts:

Texas A&M University System Central Services Account  
The University of Texas System Central Services Account  
University of Houston System Central Services Account  
Texas Tech University System Central Services Account  
University of North Texas System Central Services Account  
Texas State University System Central Services Account

- c. Travel expense incurred by a person employed by one unit of an above system or institution in connection with service to the other units may be reimbursed by the unit for which such services are performed or proportionately if more than one such unit is involved.

7. **Utility Revolving Funds.** The governing boards of Texas Woman's University, West Texas A&M University, all components of the University of Houston System, Texas State University System, Texas Tech University System, University of North Texas System, and The University of Texas System are authorized to use appropriated funds, except funds expressly identified for salaries, to make payments of debt service and other payments in connection with utility plant revenue bonds and utility plant operation and maintenance expenses, and/or to reimburse any revolving fund now or hereafter established in connection with providing utility services to any building or facility of the college or university, in accordance with the general principles established in Education Code, §55.11, and the creation and maintenance of any such revolving fund is hereby authorized.

8. **Appropriation Expenditure Authorization.**

- a. The educational and general appropriations made in this Act to the general academic teaching institutions, health related institutions, and Texas State Technical College may be expended for the following purposes, including, but not limited to: Instruction; Research; Public Service; Academic Support; Student Services; Institutional Support; Operation and Maintenance of Plant; Scholarships; Staff Benefits; Organized Activities; and Patient Care. Major repairs and rehabilitation of buildings and facilities may be purchased from appropriated funds, but may not be purchased from general revenue funds that are not expressly identified or allocated for such purposes.
- b. No educational and general funds appropriated to any institution or agency named in this article may be expended on auxiliary enterprises, unless specifically authorized in this Act.

9. **Tuition Revenue Bonds and Revenue Bonds.** Funds clearly identified in separate informational strategies to the general academic teaching institutions and health sciences centers for revenue or tuition revenue bond retirement may be expended only to reimburse institutions or centers for debt retirement authorized by Education Code §55.17 through §55.17721 and §55.19 and any

additional authorization enacted by the Eighty-fourth Legislature. Any funds in excess of the amount expended for regularly scheduled principal and interest for debt service reimbursements due each year shall be lapsed to the General Revenue Fund at the end of each fiscal year. Funds may be used for bond and commercial paper debt service payments, which can include principal, interest and fees.

**Sec. 7. Recruitment of Students.** No funds appropriated by this Act may be expended for travel expenses incurred outside the boundaries of the State of Texas for the purpose of direct recruitment of students.

**Sec. 8. Television Stations Prohibited.** None of the educational and general funds appropriated in this Article may be expended for the acquisition, construction, or operation of television transmitter stations; provided, however, this prohibition shall not be construed so as to prevent the institutions of higher education named in this Article from using closed-circuit television for purely instructional purposes, or to prevent institutions with existing public broadcasting or transmitter stations to use them for educational purposes, or to prevent the continuance of operating arrangements with existing transmitter stations for purely educational purposes; or to prevent cooperative arrangements with public broadcast stations.

**Sec. 9. Intercollegiate Athletics.** The special and general provisions of Articles III and IX of this Act shall not apply to intercollegiate athletics. The governing boards of the respective institutions of higher education shall use the appropriations in this Act to make such necessary rules and adjustments as may be deemed advisable for the management and operation of such activities; however, no funds under control of intercollegiate athletics may be used to purchase alcoholic beverages; no educational and general funds appropriated may be used for the operation of intercollegiate athletics; such rules and adjustments shall be designed to complement the rules applicable to other departments of the respective institution; and finally, such rules and adjustments shall specifically prohibit violation of National Collegiate Athletic Association (NCAA) or other governing body rules with respect to recruitment of athletes.

**Sec. 10. Prohibition Against Additional Museums.** None of the educational and general funds appropriated in this Article shall be used for establishing additional museums or for the maintenance and operation of museums unless the language of this Act or of other acts and resolutions of the Legislature specifically authorizes such use of educational and general funds. As an exception to this provision, in order to encourage and promote gifts, grants, or donations to institutions of higher education, it is specifically provided that an institution which receives such gifts, grants, or donations for the construction or establishment of a museum, which is added to an institution's building inventory after September 1, 1997, may use educational and general funds appropriated by this Article for the maintenance and operation of such a museum. This exception applies only to the authority to spend appropriated funds for these purposes; such museum space shall not be included in formula calculations for purposes of determining the amounts of appropriations due for maintenance or operations of institutional facilities.

**Sec. 11. Method of Financing Scholarships.**

1. Out of the funds identified by this Article in the informational items described as "Other Educational and General Income," the respective governing boards of the general academic teaching institutions and of the health centers, health science centers, or technical colleges may allocate and expend the actual receipts in such informational item for student scholarships pursuant to the provisions of Education Code §56.031 to §56.039, cited as the Texas Public Educational Grants Program.
2. Copies of such approved allocations together with copies of rules and regulations adopted by the respective governing boards concerning the award of such scholarships shall be filed with the Coordinating Board and with the Comptroller prior to the disbursement of any moneys for scholarships. Copies of any subsequent changes in such allocations or rules shall be similarly filed with the Coordinating Board and with the Comptroller.
3. No educational and general funds appropriated in this Act for scholarships to institutions of higher education may be used to provide athletic scholarships.

(Continued)

4. Out of the additional funds appropriated for the 2016-17 biennium for the informational strategy described as "Scholarships," the respective governing boards shall allocate and expend such funds for need-based student scholarships regardless of the race, sex, color, or ethnicity of the student recipient.

**Sec. 12. Use of Educational and General Funds for Alumni Activities Prohibited.** None of the educational and general funds appropriated by this Article may be expended by institutions of higher education for the support or maintenance of alumni organizations or activities.

**Sec. 13. Limitation of Nonresident Enrollment in Certain State-supported Professional Schools.**

1. None of the funds appropriated by this Act may be expended for the establishment, operation, or maintenance, or for the payment of any salaries to the employees in, any wholly or partially state-supported medical, dental, or law school which: (a) imposes a limitation on the number of students that it admits, (b) in an academic semester denies admission to one or more Texas residents who apply for admission and who reasonably demonstrate that they are probably capable of doing the quality of work that is necessary to obtain the usual degree awarded by such school, and (c) in the same academic semester admits, as either class, nonresidents of the State of Texas in a number greater than 10 percent of the class of which such nonresidents are a part. Limitation of nonresident enrollment at The University of Texas Law School, Texas Tech University School of Law, and the University of Houston Law Center may be increased to 35 percent of the class of which nonresidents are a part provided that the admission of such nonresident students is on the basis of academic merit alone. By the provisions of this paragraph it is intended to withhold funds appropriated by this Act from state-supported medical, dental, and law schools which limit their enrollments and which fill more than 10 percent of their classes with non-resident students in the case of medical and dental schools, and 35 percent in the case of The University of Texas Law School, Texas Tech University Law School, and the University of Houston Law Center, when the result of admitting a nonresident denies admission to a qualified Texas applicant. This provision shall not apply to the funds appropriated to the Coordinating Board for the funding of Baylor College of Medicine or to funds appropriated for tuition equalization grants for students attending private colleges.
2. In addition, The University of Texas Southwestern Medical Center may admit up to 25 competitively recruited medical students in each entering class for a specialized six-year program of clinical and research training designed to lead to the MD and PhD degrees irrespective of whether those students are Texas residents.
3. Texas medical schools may enroll up to 6 competitively recruited medical students, who already possess the DDS degree, in each second year medical school class for a specialized six year program in oral and maxillofacial surgery comprised of the last three years of medical school and a three year residency program irrespective of whether those students are Texas residents.

**Sec. 14. Off-campus Instruction.** General academic institutions may use the funds appropriated in this Act to teach courses off campus with the following restrictions:

1. At the conclusion of each fiscal year, the Coordinating Board shall file a report with the Governor and the Legislative Budget Board on all general academic institutions concerning off-campus semester credit hours for that fiscal year.
2. Semester credit hours generated at upper level centers authorized by the Legislature or by the Coordinating Board, as well as at Prairie View A&M University's Houston nursing program and Texas Woman's University nursing programs in Dallas and Houston, are not considered to be off-campus.
3. All courses taught off campus must be taught by a regular faculty member or administrator who is employed at least half-time on the main campus of the institution. The Commissioner of Higher Education may waive this requirement in special cases where institutions can justify the use of a uniquely qualified individual. Allied health and vocational instructors are exempted from this requirement.

**Sec. 15. Tuition and Other Educational and General Local Fee Collection.** No institution of higher education shall receive appropriations through formula funding in this Act unless it collects from each student whose semester credit hours are to be included in formula funding calculations all tuition and all

fees in accordance with the installment tuition and fee payment plan provided for by the Education Code, (Chapter 54, as amended) on or before the end of the 20th class day for each regular semester and the 15th class day for each summer session. Valid contracts with the United States Government for instruction of eligible military personnel and valid contracts with private business and public service-type organizations or institutions such as hospitals may be considered as collections thereunder but subject to adjustments after final payment thereof. Financial aid awards processed by the financial aid office but not yet issued to the student may be considered as collections thereunder but subject to adjustments after final payment thereof.

**Sec. 16. Compliance with Uniform Recruitment and Retention Strategy.** Institutions of higher education shall use the appropriations in this Act to give top priority and consideration to compliance with the spirit and mandates of the Uniform Recruitment and Retention Strategy.

**Sec. 17. Formula Variable and Educational and General Income Audits.** The Texas Higher Education Coordinating Board in consultation with the State Auditor's Office and the Legislative Budget Board shall clearly define all variables used by the Eighty-fourth Legislature in arriving at formula appropriations for fiscal years 2016 and 2017. According to an audit plan developed in consultation with the Coordinating Board and Legislative Budget Board, all variables of selected formulas used in making fiscal years 2016 and 2017 formula appropriations are subject to audit by the State Auditor. The State Auditor shall report any differences from data submitted by the institutions to the Coordinating Board, the Legislative Budget Board, and the Governor. The Coordinating Board shall then calculate a new appropriations amount for each institution that reported data in conflict with that verified by the Auditor. These calculations shall then be reported to the Legislative Budget Board, Governor, and the Comptroller of Public Accounts and may be used to revise appropriation authority accordingly. The calculation of revised appropriation amounts shall allow each institution an error rate of up to 2 percent of the biennial appropriations related to the variables audited at that institution.

In addition, components of educational and general income reported in the institutional requests for legislative appropriations for fiscal years 2016 and 2017 are subject to audit by the State Auditor.

The State Auditor may request the assistance of an institution's internal auditor in performing the audits described in this section.

**Sec. 18. System Offices Funding Authorized.** Educational and general funds appropriated to components of The University of Texas, Texas A&M University, University of Houston, Texas Tech University, University of North Texas, Texas State University System, and Texas State Technical College Systems may be transferred or contracted to system offices to provide support for coordination, administration, and other related services.

**Sec. 19. Annual Reports of Health Related Institutions Practice Plans.** As a limitation and restriction upon appropriations made by this Act, all agencies that have a public health related institution covered under Article III shall not expend funds after a period of 120 days following the close of the fiscal year, unless there has been filed with the Governor, the State Auditor, the Legislative Budget Board, the Legislative Reference Library, and the Comptroller of Public Accounts an annual report as of August 31 of the preceding fiscal year showing the use of practice plan funds. The annual report shall conform to a uniform reporting system developed by the State Auditor's Office for all financial data concerning the health related institutions practice plans.

**Sec. 20. Self-insurance Funds.** Any funds of an institution of higher education used for or allocated to a self-insurance fund authorized by Government Code §2259.001 for a risk otherwise insurable by the institution of higher education shall be treated by the Comptroller of Public Accounts as an expenditure of the respective funds. The self-insurance funds so created shall be considered designated funds as that term is used in §51.008(b) of the Education Code. Any self-insurance fund reserves so created shall not exceed in amount the maximum value determined to be actuarially sound for each such self-insurance program.

**Sec. 21. Uncompensated Care Reporting Requirement.** The public health-related institutions shall use the appropriations in this Act to include in their biennial legislative appropriations request information including the actual amount of uncompensated care provided through each institution's respective physician practice plan, and if applicable, hospital or clinic using the uncompensated care reporting requirement established by the Health and Human Services Commission.

## **SPECIAL PROVISIONS RELATING ONLY TO STATE AGENCIES OF HIGHER EDUCATION**

(Continued)

Uncompensated care includes the unreimbursed costs for the uninsured (those with no source of third party insurance) and the underinsured (those with insurance who after contractual adjustment and third party payments have a responsibility to pay for an amount they are unable to pay). Uncompensated care also includes the unreimbursed cost from governmental sponsored health programs. To calculate uncompensated care, charges will be converted to costs by application of a standard, auditable ratio of cost to charge and providers will recognize appropriate patient specific funding and lump sum funding available to offset costs. Any amounts received by the Physician Practice Plan from Upper Payment Limit shall be counted as payments received for uncompensated care.

### **Sec. 22. County Indigent Care Contracts.**

1. **Contracts Required.** It is the intent of the Legislature that all institutions of higher education providing indigent health care contract with relevant counties in their service area to recover the costs associated with treating those counties' indigent patients.
2. **County Indigent Care Contracts Reporting.** The University of Texas Medical Branch at Galveston, The University of Texas M.D. Anderson Cancer Center, and The University of Texas Health Science Center at Tyler shall submit to the Legislative Budget Board and the Governor at the end of each fiscal year a list of counties whose indigent residents have been served by each institution; the total amount of reimbursement received by each institution from each county pursuant to the Indigent Health Care and Treatment Act; and the total cost, by county, of services provided by each institution for which counties are liable pursuant to the Indigent Health Care and Treatment Act. In addition, each institution shall report annually (no later than December 1st) to the Legislative Budget Board and Governor on the status of contract agreements or negotiations with each county whose indigent residents have been served by the institution.

### **Sec. 23. Ethics Policy.**

1. None of the funds appropriated by this Act may be expended by an institution of higher education until its governing board has filed with the Texas Higher Education Coordinating Board an ethics policy which has been adopted by the board of regents. The ethics policy shall apply to the board of regents and its staff, the administration, staff, and faculty of the institutions under the board's governance.
2. The ethics policy adopted by each board of regents shall include specific provisions regarding sexual harassment.

**Sec. 24. Driscoll Children's Hospital.** No funds appropriated to a health-related institution of higher education shall be used to replace or duplicate the Driscoll Children's Hospital in caring for children with special health-care needs, including pediatric cardiovascular diseases, or in assuming the direct care of those children. This rider language shall not restrict the traditional referral patterns utilized by physicians to refer patients to health-related institutions.

**Sec. 25. Participation in Drug Development Research Projects.** A public university may not expend funds appropriated by this Act, including appropriations of grants or gifts, to conduct a drug development research protocol involving a person who is receiving mental health services under a protective custody order, pursuant to Chapter 574, Health and Safety Code. This rider is not intended to limit or prohibit provisions for treatment established under §576.022, Health and Safety Code.

**Sec. 26. Post Tenure Review.** None of the funds appropriated by this Act may be expended by an institution of higher education until its governing board has filed with the Texas Higher Education Coordinating Board policies and procedures regarding post tenure review which have been adopted by the board of regents. Post tenure policies shall include review procedures to determine that a tenured faculty member is performing consistently at an acceptable, professional level and a mechanism whereby a faculty member is informed of any deficiencies and provided opportunities to effectively improve his or her performance.

**Sec. 27. General Academic Funding.** Appropriations made in this Act for formula funding for general academic institutions will consist of four formulas and supplemental items.

1. **Instruction and Operation Formula.** The Instruction and Operations Formula shall provide funding for faculty salaries, including nursing, departmental operating expense, library, instructional administration, research enhancement, student services, and institutional support.

Furthermore, it is the intent of the Legislature that the weight shall increase by 10 percent per biennium, up to 50 percent.
3. **Infrastructure Support.** Funding associated with plant-related formulas and utilities shall be distributed by the infrastructure support formula which is driven by the predicted square feet for universities' educational and general activities produced by the Space Projection Model developed by the Coordinating Board. The portion of the formula related to utilities is adjusted to reflect differences in unit costs for purchased utilities, including electricity, natural gas, water and wastewater, and thermal energy. The average rate per square foot is \$5.62 in fiscal year 2016 and fiscal year 2017.
4. **Supplemental Non-formula Items.** Institutions shall receive a direct reimbursement as applicable for staff group insurance (other educational and general income portion), workers' compensation insurance, unemployment compensation insurance, public education grants, organized activities, scholarships, tuition revenue bond payments, and facility lease charges. Institutions may receive an appropriation for special items. Revenue derived from board authorized tuition would still be appropriated to the institutions levying the additional charges.
5. The General Academic Instruction and Operations and Infrastructure formulas shall incorporate the Higher Education Coordinating Board's October 2006 recommendations for mission-specific formula funding for Texas A&M University at Galveston.

These formulas and supplemental items shall be reviewed and updated by study committees appointed by the Higher Education Coordinating Board and recommended changes forwarded to the Legislature, Legislative Budget Board, and Governor by June 1, 2016.

**Sec. 28. Health Related Institutions Funding.** Appropriations made in this Act for formula funding for health related institutions shall consist of four formulas plus supplemental non-formula items.

1. **Instruction and Operations Support Formula.** The Instruction and Operations Support Formula shall provide funding on a per student or full time equivalent basis. Funding for each instructional program is based on the following funding weights per student, with a base value per weighted student of \$9,829 in fiscal year 2016 and fiscal year 2017:

| <u>Program</u>     | <u>Weight Per Student</u> |
|--------------------|---------------------------|
| Allied Health      | 1.000                     |
| Biomedical Science | 1.018                     |
| Nursing            | 1.138                     |
| Pharmacy           | 1.670                     |

| Dental             | 4.601                     |
| Medical            | 4.753                     |

Instructional programs at remote locations and the main campus at The University of Texas Health Science Center at Tyler with enrollments of less than 200 students at individual campuses shall receive additional funding to compensate for the diseconomies of scale. The minimum formula shall generate additional funding per student, on a sliding scale, with programs with small enrollments receiving more additional funding per student.

2. **Infrastructure Support Formula.** Funding to the health-related institutions for plant support and utilities shall be distributed by the infrastructure support formula which is driven by the predicted square feet for the health related institutions produced by the Space Projection Model developed by the Texas Higher Education Coordinating Board. The rate per square foot is \$6.65 in fiscal year 2016 and fiscal year 2017 for all health related institutions, excluding The University of Texas M.D. Anderson Cancer Center and The University of Texas Health Science Center at Tyler. For these two institutions, the per square foot rate is \$6.26 in fiscal year 2016 and fiscal year 2017.

Because the Space Projection Model does not account for hospital space, separate infrastructure funding for hospital space at The University of Texas Medical Branch at Galveston, The University of Texas M.D. Anderson Cancer Center, and The University of Texas Health Science Center at Tyler shall be included in the total funding for hospital and center operations.

3. **Research Funding.** The health-related institutions shall retain 100 percent of indirect research costs recovered on grants. Each institution also receives research enhancement funding of \$1,412,500 plus 1.23 percent in fiscal year 2016 and fiscal year 2017 of its research expenditures as reported to the Texas Higher Education Coordinating Board.
4. **Research at Clinical Partners.** Research conducted by faculty of a health related institution under a contract with a clinical partner shall be considered in the formula calculations for the Research Enhancement and E&G Space Support strategies as defined under Article III, Special Provisions Relating Only To State Agencies of Higher Education, Section 28, subsection (2) Infrastructure Support Formula and Sec. 28, subsection (3) Research Funding.
5. **Graduate Medical Education Formula.** The Graduate Medical Education Formulas shall provide funding on a per medical resident basis. Funding is based on a base value of \$12,532 per medical resident in an accredited program. Appropriations for Graduate Medical Education for fiscal year 2016 and fiscal year 2017 are \$6,266 per resident.
6. **Health Related Institution Graduate Medical Education.** The funds appropriated above in each of the health related institutions bill pattern titled Graduate Medical Education (GME) shall be spent to increase the number of resident slots in the State of Texas as well as faculty costs relating to GME. In addition, each health related institution shall work with the Higher Education Coordinating Board to develop new performance measures relating to increasing the number of resident slots in the State of Texas.

7. **Supplemental Non-formula Items.** Institutions shall receive a direct reimbursement as applicable for staff group insurance, workers' compensation insurance, unemployment insurance, public education grants, medical loans, tuition revenue bond payments, and facility lease charges. 8. **Formula Study Committees.** These formulas shall be reviewed and updated by study committees appointed by the Texas Higher Education Coordinating Board and recommended changes forwarded to the Legislature, Legislative Budget Board, and Governor by June 1, 2016.
9. **Mission Specific Support.** The University of Texas M.D. Anderson Cancer Center and The University of Texas Health Science Center at Tyler do not provide formal medical education which qualifies for instruction support under subsection 1 above. Therefore, funding allocated to these institutions shall be based on the following criteria:
  - a. The General Revenue Operations formula funding provided to The University of Texas M.D. Anderson Cancer Center in Strategy A.2.1, Cancer Center Operations, shall be based on the total number of Texas cancer patients served at The University of Texas M. D. Anderson Cancer Center. General Revenue appropriations for fiscal year 2016 and 2017 shall be based on the number of total Texas cancer patients served in 2014. The rate per patient shall be \$1,877 in fiscal year 2016 and fiscal year 2017 for Strategy A.2.1, Cancer Center Operations. For formula funding purposes, the amount of growth in total funding from one biennium to another may not exceed the average growth in funding for Health Related Institutions in the Instruction and Operations formula for the current biennium.
  - b. The University of Texas Health Science Center at Tyler has a statutory mission to conduct research, develop diagnostic and treatment techniques, provide training and teaching programs, and provide diagnosis and treatment of inpatients and outpatients with pulmonary, respiratory and other diseases of the chest. General Revenue funds appropriated to The University of Texas Health Science Center at Tyler in Strategy A.1.2, Chest Disease Center Operations, shall be based on the number of cases in which disease diagnoses are treated by The University of Texas Health Science Center at Tyler. General Revenue appropriations for fiscal year 2016 and 2017 shall be based on the number of such cases treated in fiscal year 2014. The rate per case for fiscal year 2016 and 2017 shall be \$215. For formula funding purposes, the amount of growth in total funding from one biennium to another may not exceed the average growth in funding for Health Related Institutions in the Instruction and Operations formula for the current biennium.
  - c. The University of Texas M.D. Anderson Cancer Center and The University of Texas Health Science Center at Tyler shall submit to the Legislative Budget Board, Governor, and Texas Higher Education Coordinating Board a copy of the appropriate reports discussed above and supporting documentation which provides the necessary information to calculate the formula allocations in subsections (a) and (b) above.

This provision shall not be construed as requiring any school to accept an unqualified applicant to its professional nursing program. In the event that a school falls below the required number of students enrolled in professional nursing program by more than 5 percent for the state fiscal year ending August 31, 2016, and the state fiscal year ending August 31, 2017, the school shall report to the Legislative Budget Board and the Texas Higher Education Coordinating Board the reasons for failing to meet the required enrollment.

Any fees deposited and any unobligated and unexpended balances remaining in excess of \$13,672,839 in fiscal year 2016 and \$13,672,839 in fiscal year 2017 (estimated to be \$0) are appropriated to the Supreme Court for the same purpose.

3. **Laboratory Testing.** It is the intent of the Legislature that laboratory testing for animal diseases be performed at the Texas Veterinary Medical Diagnostic Lab (TVMDL) to the extent of its capabilities, unless the Texas Animal Health Commission (TAHC) State-Federal Laboratory can perform the testing for TAHC programs more cost effectively. Furthermore, the TAHC will use funds appropriated by this Act to enter into an interagency memorandum of understanding to work with TVMDL to reduce duplication and ensure that all testing is performed in Texas to the extent possible.
4. **Unexpended Balances Within the Biennium.** The unobligated and unexpended appropriation balances of the Texas Animal Health Commission for the fiscal year ending August 31, 2016, are appropriated to the Texas Animal Health Commission for the same purposes for the fiscal year beginning September 1, 2016.
5. **Testing and Immunization of Employees.** Funds appropriated above may be expended for any immunization or testing, which is required of employees at risk in the performance of their duties.
6. **Contingency to Increase the Full-Time-Equivalents (FTE) Cap for Federally Funded Programs.** Contingent upon the receipt of federal funds above those appropriated in this Act for programs related to animal identification or surveillance, control, or eradication of animal health pests or diseases, the Texas Animal Health Commission is hereby authorized to increase its number of FTEs to the extent that federal funds are allocated for salary costs. These FTEs shall not be counted against the agency's "Number of Full-Time-Equivalents (FTE)" cap.

The Texas Animal Health Commission shall report all additional FTEs authorized by this provision to the Comptroller of Public Accounts, the Legislative Budget Board, and the Governor prior to filling a position described by this rider.

7. **Allowance for Personally-Owned Horses.** Funds appropriated above may be expended to provide an allowance not to exceed seventy-five dollars (\$75) per employee per day for each Commission employee whose duties require the use of a personally-owned horse.
8. **Appropriations Limited to Revenue Collections: Cost Recovery for Animal Health and Laboratory Programs.**
  - a. Amounts appropriated above in Strategy A.1.1, Field Operations, include \$424,562 in each fiscal year of the 2016-17 biennium from revenues collected and deposited to the credit of the General Revenue Fund from the assessment of fees pursuant to Agriculture Code §§161.0411 and 161.0601. These appropriations are contingent upon the Animal Health Commission assessing fees during the 2016-17 biennium sufficient to generate revenue (Object Code 3420) necessary to cover the General Revenue appropriations made above in Strategy A.1.1, Field Operations, identified in this rider. In the event that actual and/or projected revenue collections are insufficient to offset the costs identified in this provision, the Legislative Budget Board may direct that the Comptroller of Public Accounts reduce the appropriation authority provided above to be within the amount of revenue expected to be available.

- b. In addition to the amounts identified in this rider and appropriated above in Strategy A.1.1, Field Operations, any revenues received during the 2016-17 biennium from fees deposited to the credit of the General Revenue Fund pursuant to Agriculture Code §§161.0411 and 161.0601 (Object Code 3420) in excess of the amount of \$512,000 each fiscal year included in the Comptroller's Biennial Revenue Estimate for 2016-17 are appropriated for the same purposes.
- c. Contingent upon the enactment of legislation authorizing or reauthorizing Agriculture Code §161.060, or creating a similar section of the Agriculture Code providing the Animal Health Commission with the authority to assess new or recreated fees as of September 1, 2015, all revenue from fees collected and deposited to the General Revenue Fund (Object Code 3420) from the recreation or creation of new statutory authority by the Eighty-Fourth Legislature for these purposes is appropriated.

## COMMISSION ON ENVIRONMENTAL QUALITY

(Continued)

3. **Authorization: Aircraft Chartering.** Notwithstanding any other provision of this Act, the Texas Commission on Environmental Quality is authorized to spend appropriated funds for the chartering of aircraft for the purposes of monitoring environmental quality and the enforcement of environmental and water rights laws of the State.
4. **Local Air Pollution Grants Allocation.** Out of the amounts appropriated above, no less than \$2,658,228 in each fiscal year out of the Clean Air Account No. 151 in Strategy A.1.1, Air Quality Assessment and Planning, shall be utilized to fund grants or cooperative agreements with eligible local air pollution programs under Health and Safety Code, §382.0622. The combined federal and state share of the funding for any such local air pollution programs shall not exceed 67 percent of the total allocation to the programs, with the local share being based on the local dollars allocated pursuant to maintenance-of-effort requirements for federal air pollution grants.
5. **Fee Revenue: Pollution Control Equipment Exemptions.** Amounts appropriated above include \$225,116 each fiscal year from fee revenue collected pursuant to Tax Code, §11.31, beginning with the effective date of this Act out of the General Revenue Fund in Strategy C.1.3, Pollution Prevention, Recycling, and Innovative Programs, for the purpose of determining whether pollution control equipment is exempt from taxation.

In addition to amounts appropriated above, any amounts collected by the Texas Commission on Environmental Quality pursuant to Tax Code, §11.31 on or after September 1, 2015, in excess of \$225,116 in each fiscal year of the biennium are appropriated to the agency.

6. **Authorization: Operating Fund.** The Texas Commission on Environmental Quality (TCEQ) is authorized to make transfers from any appropriation made to TCEQ into a single account in the General Revenue Fund known as the "Texas Commission on Environmental Quality Operating Fund" for the purpose of making expenditures for which appropriations were made in this Act. After the expenditures have been made from the fund and as soon as the proper strategies have been identified, TCEQ shall process adjustments to the Comptroller in summary accounts to facilitate accurate cost allocations; provided, however, that each special account and fund shall be used for the purposes in current law and nothing shall be done to jeopardize or divert the special accounts and funds or any portion thereof including federal aid.
7. **Appropriation: Air Quality Planning.** Amounts appropriated above include \$6,000,500 for the biennium out of the Clean Air Account No. 151 in Strategy A.1.1, Air Quality Assessment and Planning, for air quality planning activities to reduce ozone in areas not designated as nonattainment areas during the 2014-15 biennium and as approved by the Texas Commission on Environmental Quality (TCEQ). These areas may include Waco, El Paso, Beaumont, Austin, Corpus Christi, Granbury, Killeen-Temple, Longview-Tyler-Marshall, San Antonio, and Victoria. These activities may be carried out through interlocal agreements and may include: identifying, inventorying, and monitoring of pollution levels; modeling pollution levels; and the identification, quantification, implementation of appropriate locally enforceable pollution reduction controls; and the submission of work plans to be submitted to the TCEQ. The TCEQ shall allocate \$350,000 to each area and the remaining funds to each area based on population in excess of 350,000. The grant recipients shall channel the funds to those projects most useful for the State Implementation Plan (SIP).
8. **Contract with the State Office of Administrative Hearings.** Amounts appropriated above include \$816,000 in each fiscal year of the biennium to cover the cost of contracting with the State Office of Administrative Hearings (SOAH) for funding SOAH's Natural Resources Division for the purpose of conducting administrative hearings and for related expenses. The Texas Commission on Environmental Quality (TCEQ) and the (SOAH) may not enter into a contract for an amount less than the amounts specified SOAH. If the SOAH determines, at the end of each fiscal year, that the amount paid under the contract exceeds the necessary funding, it shall refund the difference to TCEQ. If the SOAH determines that the amounts are insufficient to fund the Natural Resources Division, the SOAH may enter into negotiations with TCEQ in order to renegotiate the interagency contract to provide additional funds for administrative hearings. The SOAH is not appropriated any state funds from such renegotiated contracts until it gives written notice to the Legislative Budget Board and the Governor, together with written permission of the agency.
9. **Texas Parks and Wildlife Environmental Special Investigations Unit.** Amounts appropriated above include \$225,000 each fiscal year out of the Waste Management Account No. 549 in Strategy C.1.2, Enforcement and Compliance Support, for the purpose of supporting the Texas Parks and Wildlife Department's Environmental Special Investigations Unit to enforce state and

federal laws on illegal dumping. This appropriation is contingent on a memorandum of understanding and an interagency transfer of the funds between the Texas Parks and Wildlife Department and the Texas Commission on Environmental Quality to jointly administer the program. Any unexpended balance of this appropriation from fiscal year 2016 is appropriated for the same purpose for fiscal year 2017.

- 3. Appropriations Limited to Revenue Collections and Contingent Revenue: LPG/CNG/LNG Fees.** Revenues collected pursuant to Natural Resources Code §§113.082, 113.090, 113.093, 113.094, 113.131, 116.032, 116.034, and 116.072 and deposited in the General Revenue Fund (Revenue Object Codes 3035 and 3246) shall cover, at a minimum, the cost of the appropriations made above for the LP Gas Program and Alternative Fuels Licensing Program in Strategy B.2.1, Regulate Alternative Energy Resources (\$354,618 in fiscal year 2016 and \$400,181 in fiscal year 2017).

This appropriation is contingent upon the Railroad Commission assessing fees sufficient to generate, during the 2016-17 biennium, revenue to cover the General Revenue appropriations in Strategy B.2.1, Regulate Alternative Energy Resources, as well as "Other direct and indirect costs" for the program appropriated elsewhere in this Act. "Other direct and indirect costs" are estimated to be \$87,635 in fiscal year 2016 and \$101,027 in fiscal year 2017. In the event that actual and/or projected revenue collections are insufficient to offset the costs identified by this provision, the Legislative Budget Board may direct that the Comptroller of Public Accounts reduce the appropriation authority provided above to be within the amount of revenue expected to be available.

In addition to amounts appropriated above, any revenues collected by the Commission (Revenue Object Codes 3035 and 3246) and deposited in the General Revenue Fund in excess of the Comptroller's Biennial Revenue Estimate are appropriated to the Railroad Commission each fiscal year.

- 4. Liquid Propane (LP) Gas Training and Examination Renewal Fees.** Included in amounts appropriated above in Strategy A.2.1, Promote Alternative Energy Resources, is \$1,123,500 in each fiscal year of the biennium, in Appropriated Receipts (Revenue Object Codes 3245 and

3722) from fees assessed and collected pursuant to Natural Resources Code, §§113.088 and 116.034. These amounts may only be used for the purpose of providing training and examinations to licensees and certificate holders. In addition to amounts appropriated above, any additional amounts collected by the Railroad Commission pursuant to Natural Resources Code, §§113.088 and 116.034, on or after September 1, 2015, are appropriated to the Commission for the same purpose.

5. **Appropriation Limited to Revenue Collections: Surface Mining Permits and Contingency Appropriation for Fee Increase.** Included in the amounts appropriated above is \$2,205,318 in fiscal year 2016 and \$2,027,398 in fiscal year 2017 in Strategy C.1.2, Surface Mining Monitoring and Inspections, from surface mining fee revenues deposited to the General Revenue Fund to cover the cost of permitting and inspecting coal mining facilities.

This appropriation is contingent upon the Railroad Commission assessing fees sufficient to generate, during the 2016-17 biennium, revenue to cover the General Revenue appropriations for the Surface Mining Program as well as "Other direct and indirect costs" for the program appropriated elsewhere in this Act. "Other direct and indirect costs" are estimated to be \$498,046 in fiscal year 2016 and \$509,691 in fiscal year 2017. In the event that actual and/or projected revenue collections are insufficient to offset the costs identified by this provision, the Legislative Budget Board may direct that the Comptroller of Public Accounts reduce the appropriation authority provided above to be within the amount of revenue expected to be available.

In addition to amounts appropriated above, any revenues received from surface mining fees deposited to the credit of the General Revenue Fund (Revenue Object Code No. 3329) in excess of the Comptroller's Biennial Revenue Estimate each fiscal year are appropriated to the Railroad Commission in the 2016-17 biennium for the same purposes.

6. **Appropriations Limited to Revenue Collections for Pipeline Safety Fees.** Included in the amounts appropriated above are revenues from fees assessed on pipelines and pipeline facilities and deposited in the General Revenue Fund (Revenue Object Code 3553) pursuant to Utilities Code, §121.211 (estimated to be \$3,406,866 in fiscal year and \$3,218,262 in fiscal year 2017). These funds shall be used to operate programs in Strategy B.1.1, Pipeline Safety, Strategy B.1.2, Pipeline Damage Prevention, and Strategy C.3.1, Gas Utility Commerce. The Railroad Commission is authorized to transfer appropriations made pursuant to this provision to the appropriate strategy items.

These appropriations are contingent upon the Railroad Commission assessing fees sufficient to generate, during the 2016-17 biennium, revenue to cover, at a minimum the General Revenue appropriations for the Pipeline Safety program and the underground pipeline damage prevention program as well as "Other direct and indirect costs" for the programs, appropriated elsewhere in this Act. "Other direct and indirect costs" are estimated to be \$1,042,344 in fiscal year 2016 and \$1,072,124 in fiscal year 2017. In the event that actual and/or projected revenue collections are insufficient to offset the costs identified by this provision, the Legislative Budget Board may direct the Comptroller of Public Accounts to reduce the appropriation authority provided above to be within the amount of revenue expected to be available.

In addition to amounts appropriated above, any revenues received from pipeline safety fees deposited in the General Revenue Fund (Revenue Object Code No. 3553) in excess of the Comptroller's Biennial Revenue Estimate each fiscal year are appropriated for the 2016-17 biennium for the same purpose.

7. **Capital Budget Expenditures: Federal Funds and Appropriated Receipts.** To comply with the legislative intent to maximize the use of federal funds and to fulfill grant requirements required for the receipt and expenditure of Federal Funds, the Railroad Commission (RRC) is exempted from the Capital Budget Rider Provisions contained in Article IX, §14.03, of this Act, "Limitations on Expenditures - Capital Budget," when Federal Funds and Appropriated Receipts are received in excess of amounts identified in the agency's Capital Budget Rider. The RRC shall notify the Legislative Budget Board and the Governor upon receipt of such funds, of the amount received from these sources and the items to be purchased.

8. **Appropriation: Uranium Mining Regulatory Program.** Included in amounts appropriated above out of the General Revenue Fund in Strategy C.1.2, Surface Mining Monitoring and Inspections, is \$205,204 in fiscal year 2016 and \$204,139 in fiscal year 2017 for the uranium mining regulatory program. These appropriations are contingent upon the Railroad Commission assessing fees sufficient to generate, during the 2016-17 biennium, revenue to cover, at a

minimum the General Revenue appropriations for the Uranium Mining Regulatory program as well as "Other direct and indirect costs" for the program, appropriated elsewhere in this Act. "Other direct and indirect costs" are estimated to be \$52,751 in fiscal year 2016 and \$54,316 in fiscal year 2017. In the event that actual and/or projected revenue collections are insufficient to offset the costs identified by this provision, the Legislative Budget Board may direct the Comptroller of Public Accounts to reduce the appropriation authority provided above to be within the amount of revenue expected to be available.

9. **Appropriation: Anthropogenic Carbon Dioxide Storage Trust Fund Revenues.** In addition to the amounts appropriated above, any revenues received in the Anthropogenic Carbon Dioxide Storage Trust Fund No. 827 (Other Funds) (estimated to be \$0) during the 2016-17 biennium are appropriated to the Railroad Commission. In accordance with Water Code, Chapter 27, Subchapter C-1, these funds shall be used for the costs of: (1) permitting, monitoring, and inspecting anthropogenic carbon dioxide injection wells for geologic storage and geologic storage facilities; and (2) enforcing and implementing this subchapter and rules adopted by the Railroad Commission under this subchapter.
10. **Oil and Gas Division Permitting Efficiencies.** The Railroad Commission shall maintain staffing levels in its Oil and Gas Division in both its Austin office and in each district office in a manner sufficient to be able to review and respond to all permits within 10 business days of receipt, except for disposal or injection well permits, which shall be responded to within 30 days of receipt. In addition, the Railroad Commission shall issue a final decision on contested case oil and gas permitting matters within 60 business days of the hearing date.
11. **Enforcement and Compliance Data and Public Information.** Out of the monies appropriated to the Railroad Commission in Strategy D.1.1, Public Information and Services, the agency shall publish information about enforcement data on its website, including inspection and enforcement activity, violations and the amount of final enforcement penalties assessed to the operator. The agency shall also make available on its website quarterly trends of enforcement data, including the number of complaints received and how the complaints were resolved, the number and severity of violations sent for enforcement action, the number of violations sent for enforcement action for each Commission rule, and the number of repeat violations found for each operator.
12. **High-Cost Housing Salary Supplement.** Out of funds appropriated above, the Railroad Commission is authorized to pay a salary supplement, not to exceed \$1,200 per month, to each Commission employee located in an area of the state in which the high cost of living is causing excessive employee turnover, as determined by the Commission. This salary supplement shall be in addition to the maximum salary rate authorized for that position elsewhere in this Act. In the event that an employee so assigned works on a less than full-time basis, the maximum salary supplement shall be set on a basis proportionate to the number of hours worked.
13. **Appropriation: Pipeline Safety - Specialized Inspections.** Amounts appropriated above in Strategy B.1.1, Ensure Pipeline Safety, include \$760,558 in fiscal year 2016 and \$604,177 in fiscal year 2017 from General Revenue, and \$507,051 in fiscal year 2016 and \$402,772 in fiscal year 2017 from Federal Funds, including 20.0 FTEs, for the purpose of conducting safety evaluations of pipeline operators.
14. **Transfer Authority.** Notwithstanding limitations on appropriation transfers contained in the General Provisions of this Act, the Railroad Commission is authorized to direct agency resources and transfer such amounts appropriated above between appropriation line items.
15. **Appropriation: Unexpended Balances Between Fiscal Years within the Biennium.** Any unobligated and unexpended balances as of August 31, 2016, in the appropriations made herein to the Railroad Commission are appropriated for the same purposes for the fiscal year beginning September 1, 2016.

If SOAH determines, at the end of each fiscal year, that the amount paid under the contract exceeds the funding necessary for the Natural Resources Division, it shall refund the difference. If SOAH determines that these amounts are insufficient to fund the Natural Resources Division it may enter into negotiations with the TCEQ in order to renegotiate an interagency contract in a manner which will provide it with additional funds, provided that SOAH shall not be appropriated any state funds from such renegotiated interagency contract until it gives prior written notice to the Legislative Budget Board and the Governor, accompanied by written permission of the TCEQ.

Appropriations made above to Strategy A.1.1, Conduct Hearings, include \$184,000 in fiscal year 2016 and \$184,000 in fiscal year 2017 in Interagency Contracts to fund SOAH for the purpose of conducting water and sewer utility case hearings for the Public Utility Commission of Texas (PUC). - 4. Benefit Collection.** Agencies that enter into contracts with the State Office of Administrative Hearings (SOAH), for the purpose of performing the hearings function, and make payments to SOAH from funding sources other than General Revenue, must reimburse SOAH for employee benefit costs for salaries and wages. Appropriations authorized pursuant to this provision may be expended only to implement the transferred functions or expanded jurisdiction. All funds collected by SOAH as payment for, or reimbursement of, the office's costs of providing services to other state agencies or governmental entities, or others as directed by the Legislature, are appropriated to SOAH for its use during the biennium.
- 6. Hearings Activity Report.** By May 1st and November 1st of each fiscal year, the State Office of Administrative Hearings (SOAH) shall submit to the Legislative Budget Board and the Governor a report detailing hearings activity conducted during the prior two fiscal year quarters. The report shall indicate in a format prescribed by the Legislative Budget Board, for each agency served by

**8. Billing Rate for Workload.**

- a. Unless otherwise provided, amounts appropriated above and elsewhere in this Act for funding for the payment of costs associated with administrative hearings conducted by the State Office of Administrative Hearings (SOAH) are based on SOAH's actual hourly costs as determined by the most recently published Hearing Activity Report (HARP). SOAH's billing rate shall be actual costs as determined by the most recently published HARP, but not to exceed \$128 per hour for each hour of work performed during each fiscal year as reflected by the SOAH's Legislative Appropriation Request and Hearings Activity Report to the Eighty-fourth Legislature.

Notwithstanding other provisions in this Act, amounts for the payment of costs associated with administrative hearings conducted by SOAH for the Comptroller of Public Accounts shall be established through an interagency contract between the two agencies. - (2) the Commission on Law Enforcement certifies that the requesting agency is in the process of achieving compliance with such rules.

**Sec. 4.02. Grants.**

- (a) Funds appropriated by this Act for grants of money to be made by state agencies, including the agencies in the legislative branch, are appropriated for the statutory purposes as the grantor agency may specify. A state agency shall distribute grants on a reimbursement or as needed basis unless otherwise provided by statute or otherwise determined by the grantor agency to be necessary for the purposes of the grant.
- (b) Funds appropriated by this Act for grants to be made by a state agency for a particular fiscal year may be distributed in subsequent fiscal years so long as the grant has been awarded and treated as a binding encumbrance by the grantor agency prior to the end of the appropriation year of the funds appropriated for grant purposes. Distribution of the grant funds is subject to §403.071, Government Code.

**Sec. 4.03. Grants for Political Polling Prohibited.** None of the funds appropriated by the Act may be granted to or expended by any entity which performs political polling. This prohibition regarding political polling does not apply to a poll conducted by an academic institution as a part of the institution's academic mission that is not conducted for the benefit of a particular candidate or party.

**Sec. 4.04. Limitation on Grants to Units of Local Government.**

- (a) The funds appropriated by this Act may not be expended in the form of a grant to, or a contract with, a unit of local government unless the terms of the grant or contract require that the funds received under the grant or contract will be expended subject to limitations and reporting requirements similar to those provided by:
  - (1) Parts 2 and 3 of this Article (except there is no requirement for increased salaries for local government employees);
  - (2) §§556.004, 556.005, and 556.006, Government Code;
  - (3) §§2113.012 and 2113.101, Government Code;
  - (4) §6.13 of this Article (Performance Rewards and Penalties);
  - (5) §7.01 of this Article (Budgeting and Reporting);
  - (6) §7.02 of this Article (Annual Reports and Inventories); and
  - (7) §2102.0091, Government Code.

### **PART 5. TRAVEL REGULATIONS**

**Sec. 5.01. Travel Definitions.** The definitions established by §660.002, Government Code, apply to Part 5 of this Article, unless another meaning is clearly provided. In Part 5 of this Article:

- (1) "Council of governments" includes:
  - (A) a council of governments created under Chapter 391, Local Government Code;
  - (B) a regional planning commission created under Chapter 391, Local Government Code; or
  - (C) a regional planning agency created under Chapter 391, Local Government Code.
- (2) "State agency" includes the entities within the definition of §660.002(19), Government Code, and also includes a council of governments, a local workforce development board, or a community center as defined by Health and Safety Code, §534.001(b), that uses funds appropriated by this Act to pay for the transportation, meals, lodging, or other travel expenses of its employees.

**Sec. 5.02. General Travel Provisions.** The funds appropriated by this Act to a state agency for the payment of transportation, meals, lodging, or incidental expenses indicates the maximum amount that may be expended by the agency. The funds appropriated by this Act may not be expended for those expenses unless the travel and the resulting requests for payment or reimbursement comply with the conditions and limitations in this Act, Chapter 660, Government Code, and the Comptroller's Rules.

**Sec. 5.03. Transportation Expenses.** For a state employee's use of a personally owned or leased motor vehicle, the mileage reimbursement rate for travel equals the maximum fixed mileage allowance specified in the revenue rulings issued by the Internal Revenue Service under the federal income tax regulations as announced by the Comptroller.

**Sec. 5.04. Transportation in Personally Owned or Leased Aircraft.** The rate of reimbursement to be paid to a state employee, key official, member of a board, commission, or a member of the Legislature for travel in the person's personally owned or leased aircraft, either within or without the boundaries of this state, is the maximum fixed mileage allowance specified in the revenue rulings issued by the Internal Revenue Service under the federal income tax regulations or alternatively as determined by the Comptroller the rates adopted by the United States Administrator of General Services as announced by the Comptroller.

**Sec. 5.05. Travel Meals and Lodging Expenses.**

- (a)
  - (1) A state employee who travels within the continental United States shall be reimbursed for the actual cost of lodging and meals. However, the reimbursements may not exceed the maximum meals and lodging rates based on the federal travel regulations issued by the United States General Services Administration. The maximum lodging rate allowance for Texas cities and counties that do not have a specific federal per diem rate set for that city or county shall not be more than \$85 per night.
  - (2) Notwithstanding the limit established by Subsection (a)(1), the chief administrator of a state agency or designee of the chief administrator of a state agency may determine that local conditions necessitate a change in the lodging rate for a particular location and establish a higher rate.
- (b) At the discretion of each chief administrator of a state agency, a state employee whose duties require the employee to travel outside the employee's designated headquarters without an overnight stay away from the employee's headquarters may be reimbursed for the actual cost of the employee's meals not to exceed \$36.

## TRAVEL REGULATIONS

(Continued)

- (c) A state employee may receive reimbursements for the employee's actual expenses for meals and lodging when traveling outside the continental United States.
- (d) A state agency or institution may reimburse a state employee for a meal expense the employee incurs while traveling outside the employee's designated headquarters for less than six consecutive hours if the reimbursement:
  - (1) receives the written approval by the chief administrator of the state agency or institution;
  - (2) meets the rules adopted by the Comptroller regarding reimbursement for traveling outside the employee's designated headquarters for less than six consecutive hours; and
  - (3) complies with §660.206, Government Code.

**Sec. 5.06. Special Provisions Regarding Travel Expenses.** Reimbursement for meals and lodging as authorized by Subchapter H, Chapter 660, Government Code, on an "actual expenses" or "actual amount of" basis may not exceed twice the maximum rates specified in §5.05 of this Article.

### **Sec. 5.07. Travel and Per Diem of Board or Commission Members.**

- (a) As authorized by §659.032, Government Code, the per diem of state board and commission members consists of:
  - (1) compensatory per diem, if specifically authorized by law, at \$30 per day; and
  - (2) at the rates provided by this Act for state employees, expense per diem, which includes:
    - (A) reimbursement of actual expenses for meals, at the rates provided by this Act for state employees;
    - (B) lodging at the rates provided by this Act for state employees;
    - (C) transportation at the rates provided by this Act for state employees; and
    - (D) incidental expenses.
- (b) If a law enacted after former Article 6813f, VTCS, (September 1, 1983), authorizes per diem for members of a particular state board or commission, but does not specify the amount of the per diem, then the amount of the per diem is the amount provided by Subsection (a).
- (c) A full-time employee paid from funds appropriated by this Act may not be paid both a salary and compensatory per diem for concurrent service as a state employee and as a board or commission member.

### **Sec. 5.08. Travel of Advisory Committee Members.**

- (a) For the purpose of this section, the term "advisory committee" has the meaning assigned by §2110.001, Government Code.
- (b) In addition to the limits placed on reimbursement of advisory committee member expenses by this section and to the extent not otherwise limited by this Act or other law, a member of a state agency advisory committee may be reimbursed, at the rates specified in this Act for a state employee, for actual expenses for meals, lodging, transportation, and incidental expenses.
- (c) The funds appropriated by this Act may not be expended to reimburse a member of a state agency advisory committee for expenses associated with conducting committee business, including travel expenses, unless the expenditures for an advisory committee are within the limits provided by this section and other law and are:

- (1) specifically authorized by this Act; or
- (2) approved by the Governor and the Legislative Budget Board subsequent to the effective date of this Act.
- (d) The limitations provided by this section do not apply to an advisory committee established by the governing board of a retirement system trust fund.
- (e) The limitations provided by this section apply only to an advisory committee that is subject to Chapter 2110, Government Code.

### **PART 6. GENERAL LIMITATIONS ON EXPENDITURES**

#### **Sec. 6.01. Unexpended Balance.**

(a) In this Act "unexpended balance" or the abbreviation "UB" means the unobligated balance remaining in an appropriation, i.e., only that part of an appropriation, if any, that has not been set apart by the incurring of an obligation, commitment, or indebtedness by the state agency authorized to spend the appropriation. A reference in this Act to "unexpended balance" or "UB" is a reference to the unobligated balance of an amount appropriated by this Act for the fiscal year ending August 31, 2016, unless another meaning is clearly indicated.

(b) For any estimated UB appropriated by this Act, should the actual amount of the UB be different than the estimate identified in this Act, the appropriation is adjusted to equal the actual UB, subject to any other restrictions to that appropriation made elsewhere in this Act.

**Sec. 6.02. Interpretation of Estimates.** In the event the amounts of federal funds, local funds, or funds other than appropriations from the General Revenue Fund, have been estimated in this Act in sums greater than are actually received by the respective agencies of the state, this Act may not be construed as appropriating additional funds from General Revenue to make up such differences. Wherever the language of this Act appropriates all receipts or balances from a specified source but uses an estimated amount to inform the Legislature and the public, the estimated figure is not to be construed as a limitation on the amount appropriated.

#### **Sec. 6.03. Excess Obligations Prohibited.**

- (a) An agency specified in this Act may not incur an obligation in excess of the amounts appropriated to it for the respective objects or purposes named.
- (b) As a specific exception to Subsection (a) the Comptroller of Public Accounts may determine that a proposed installment purchase arrangement is cost effective and certify this finding in response to an agency request.
- (c) A determination made by the Comptroller of Public Accounts under Subsection (b) may be made for obligations incurred for the purchase or lease of automated information system equipment only if the agency has on file with the Legislative Budget Board a Biennial Operating Plan, including any amendments to the Biennial Operating Plan, and the plan has been approved by the Legislative Budget Board.
- (d) If this section is violated, the State Auditor shall certify the fact of the violation and the amount of over-obligation to the Comptroller, and the Comptroller shall deduct an amount equivalent to the over-obligation from the salary or other compensation due the responsible disbursing or requisitioning officer or employee, and apply the amount to the payment of the obligation.
- (e) This provision is specified pursuant to §10, Article XVI, Texas Constitution.

**Sec. 6.04. Interpretation of Legislative Intent.** Funds appropriated by this Act shall be expended, as nearly as practicable, for the purposes for which appropriated. In the event an agency cannot determine legislative purpose from the pattern of appropriations, the agency shall seek to determine that purpose

from the proceedings of the legislative committees responsible for proposing appropriations for this state.

**Sec. 6.05. Comptroller's Duty to Pay.** The Comptroller may not refuse to pass for payment a legal claim, factually justified, for which a valid appropriation has been made.

### **Sec. 6.06. Last Quarter Expenditures.**

- (a) A state agency or other governmental unit using funds appropriated by this Act may not expend during the last quarter of a fiscal year more than one-third of the funds appropriated for that fiscal year.
- (b) Specifically exempted from Subsection (a) are:
  - (1) expenditures contracted for in previous quarters;
  - (2) funds required by statute, rule or regulation to be expended on a different time frame;
  - (3) seasonal employment of personnel;
  - (4) construction contracts;
  - (5) contracts dealing with purchases of food, medicines, or drugs;
  - (6) expenditures related to the Children with Special Health Care Needs program operated by the Department of State Health Services; and
  - (7) expenditures occasioned by disaster or other Act of God.
- (c) The funds exempted, under Subsection (b) may not be considered in the computation of the total funds appropriated in a fiscal year for the purpose of applying Subsection (a).

### **Sec. 6.07. Employee Benefit and Debt Service Items.**

- (a) Funds appropriated in the various Articles of this Act for "Employees Retirement System," "Social Security State Match," "Benefit Replacement Pay," "Texas Public Finance Authority-G.O. Bond Debt Service Payments," and "Lease-Payments to the Texas Public Finance Authority" may be transferred between Articles to a like appropriation item without limitation as to the amount of such transfer.
- (b) An agency to which an appropriation listed under Subsection (a) is made may pool such appropriations, made in the various Articles for a common purpose, into a single cost pool for the purpose of administering the appropriation.

### **Sec. 6.08. Benefits Paid Proportional by Fund.**

- (a) Unless otherwise provided, in order to maximize balances in the General Revenue Fund, payment for benefits paid from appropriated funds, including "local funds" and "education and general funds" as defined in §51.009 (a) and (c), Education Code, shall be proportional to the source of funds except for public and community junior colleges. Any funds subject to restrictions that prevent their expenditure on salaries and wages shall not be subject to this proportional requirement.
- (b) Unless otherwise specifically authorized by this Act, the funds appropriated by this Act out of the General Revenue Fund may not be expended for employee benefit costs, or other indirect costs, associated with the payment of salaries or wages, if the salaries or wages are paid from a source other than the General Revenue Fund except for public community or junior colleges. Payments for employee benefit costs for salaries and wages paid from sources, including payments received pursuant to interagency agreements or as contract receipts, other than the General Revenue Fund shall be made in proportion to the source of funds from which the respective salary or wage is paid or, if the Comptroller determines that achieving proportionality at the time the payment is made would be impractical or inefficient, then the General Revenue Fund shall be reimbursed for any such payment made out of the General Revenue Fund.

## GENERAL LIMITATIONS ON EXPENDITURES

(Continued)

- (c) For purposes of this Act, a public community or junior college may expend funds appropriated for employee benefit costs for any employee if the employee is: (1) otherwise eligible to participate in the group benefits program; and (2) an instructional or administrative employee whose salary may be fully paid from funds appropriated under the General Appropriations Act, regardless of whether the salary is actually paid from appropriated funds.
- (d) The Comptroller, after consulting with the Legislative Budget Board and the State Auditor's Office, shall develop and maintain rules to provide for the administration of this section.
- (e) Each agency or institution of higher education (excluding a community or junior college) having General Revenue Fund appropriations and other sources of financing shall file with the Comptroller and the State Auditor a report demonstrating proportionality. The report shall be filed before November 20th following the close of the fiscal year for the salaries, wages, and benefits of the preceding year ended August 31. The report shall be in a format prescribed by the Comptroller in collaboration with the Legislative Budget Board and the State Auditor's Office.
- (f) State Auditor shall at least biennially review agency and institution compliance with the requirements of this section if the agency or institution (excluding a community or junior college) receives funds appropriated under this Act. Subject to a risk assessment, the State Auditor shall audit the expenditure transfers and payments for benefits by an agency or institution. The State Auditor shall send the audit report to the Comptroller and the Legislative Budget Board upon completion of the audit, along with any recommendations for changes or refunds. The Comptroller, on receipt of notification from the State Auditor of amounts disproportionately paid from General Revenue Fund appropriations, shall reduce current year General Revenue Fund appropriations of the agency or institution until such time as such amounts are repaid from sources other than the General Revenue Fund.
- (g) Should cash balances in appropriated funds prohibit an account or fund from absorbing additional expense related to proportionality requirements, an agency or institution may be allowed to adjust benefit expenses accordingly. An agency or institution must notify the Comptroller and Legislative Budget Board of any requested adjustment. The Comptroller shall make the final determination on the allowance of any benefit expense adjustment but shall ensure General Revenue is reimbursed to the maximum extent possible.
- (h) For institutions of higher education, excluding public community or junior colleges, funds appropriated by this Act may not be expended for employee benefit costs, or other indirect costs, associated with the payment of salaries or wages, if the salaries and wages are paid from funds not appropriated by this Act.

**Sec. 6.09. Appropriations from Special Funds.** Notwithstanding other provisions of this Act, appropriation amounts from special funds or special or dedicated accounts in the General Revenue Fund (as those terms are defined by §403.001, Government Code) are specifically limited to amounts not to exceed the actual balances and revenues available to each such fund or account.

**Sec. 6.10. Limitation on State Employment Levels.**

- (a) (1) A state agency or institution of higher education may not use funds appropriated by this Act to pay all or part of the salaries or benefits of a number of employees which would cause the number of full-time equivalent employees (FTEs) paid from funds appropriated by this Act by the state agency or institution of higher education for a fiscal quarter to exceed the figure indicated by this Act for that state agency or institution without reporting that use of funds to the Governor and the Legislative Budget Board at a time not later than the last day of the first month following each quarter of the fiscal year.
- (2) In addition to the reporting requirement of Subsection (a)(1) of this section, without the written approval of the Governor and the Legislative Budget Board a state agency or institution of higher education may not use funds appropriated by this Act to pay all or part of the salaries or benefits of a number of employees which would cause the number of full-time equivalent employees (FTEs) paid from funds appropriated by this Act by the state agency or institution of higher education for a fiscal quarter to exceed the lesser of either:

## GENERAL LIMITATIONS ON EXPENDITURES

(Continued)

- (A) one hundred and ten percent (110%) of the FTE figure indicated by this Act for that state agency or institution; or
  - (B) one hundred percent (100%) of the figure indicated by this Act for that state agency or institution plus fifty (50) FTEs.
- (b) (1) A report by a state agency or institution of higher education of exceeding the FTE limitations established by this section must be submitted by the governing board of the state agency or institution of higher education (if the agency has a governing board) or by the chief administrative officer (if the agency does not have a governing board or the governing board has not met) and must include at a minimum:
- (A) the date on which the board (if the agency has a governing board) or by the chief administrative officer (if the agency does not have a governing board or the governing board has not met) approved the report;
  - (B) a statement justifying the need to exceed or reduce the limitation;
  - (C) the source of funds to be used to pay any additional salaries; and
  - (D) an explanation as to why the functions of any proposed additional FTEs cannot be performed within current staffing levels.
- (2) A request by a state agency or institution of higher education to exceed the FTE limitations established by this section must be submitted by the governing board of the state agency or institution of higher education (if the agency has a governing board) or by the chief administrative officer (if the agency does not have a governing board) and must include at a minimum:
- (A) the date on which the board (if the agency has a governing board) or the chief administrative officer (if the agency does not have a governing board) approved the request;
  - (B) a statement justifying the need to exceed the limitation;
  - (C) the source of funds to be used to pay any additional salaries; and
  - (D) an explanation as to why the functions of any proposed additional FTEs cannot be performed within current staffing levels.
- (c) An agency or institution may make a preliminary report to the Governor and the Legislative Budget Board without meeting the requirements of Subsection (b)(1)(A) if the governing board of the agency or institution has not met within the reporting time.
- (d) For the purpose of Subsections (a) and (b), the number of FTEs employed by a state agency (not including an institution of higher education or an affiliated entity, the State Preservation Board, Parks and Wildlife Department, Texas School for the Blind and Visually Impaired, Texas School for the Deaf, and Texas Commission on Environmental Quality) for a fiscal quarter:
- (1) shall be determined in accordance with the report filed pursuant to § 2052.103, Government Code;
  - (2) shall include only employees paid with funds appropriated through this Act;
  - (3) shall not include overtime hours; and
  - (4) shall include a position filled by temporary or contract workers for more than half of the work days of the year preceding the final day of the reporting period. Temporary or contract workers shall include workers employed under contract to fill specific positions customarily filled by state employees. The State Auditor is authorized to provide interpretations of this provision.
- (e) For the purpose of Subsections (a) and (b), the number of FTEs employed by the State Preservation Board, Texas Commission on Environmental Quality, the Parks and Wildlife Department, the Texas School for the Blind and Visually Impaired, the Texas School for the Deaf, or an institution of higher education or an affiliated entity, for a fiscal year:

## GENERAL LIMITATIONS ON EXPENDITURES

(Continued)

- (1) shall be determined in accordance with the reports filed pursuant to §2052.103, Government Code;
  - (2) shall be an average of the four reports filed for that fiscal year;
  - (3) shall include only employees paid with funds appropriated through this Act;
  - (4) shall not include overtime hours; and
  - (5) shall include a position filled by temporary or contract workers for more than half of the work days of the year preceding the final day of the reporting period. Temporary or contract workers shall include workers employed under contract to fill specific positions customarily filled by state employees. The State Auditor is authorized to provide interpretations of this provision.
- (f) This section shall not apply to appropriations made by this Act to the:
- (1) Office of the Governor; or
  - (2) Comptroller.
- (g) The limitations on FTEs under this section do not apply to a state agency or institution in instances of employment, including employment of temporary or contract workers, directly associated with events declared disasters by the Governor. Each state agency or institution shall annually notify the State Auditor, Comptroller, Legislative Budget Board, and Governor of FTEs exempted under this section.
- (h) (1) The limitations on FTEs under this section do not apply to a state agency or institution in an instance of employment for a project, including employment of a temporary or contract worker, if the FTEs associated with that project are not included in the number of FTEs allowed in the agency's bill pattern and the employees are associated with:
- (A) implementation of a new, unanticipated project that is 100 percent federally funded; or
  - (B) the unanticipated expansion of an existing project that is 100 percent federally funded.
- (2) With regard to the exemption from the FTE limitations provided by this Subsection (h), a state agency or institution is exempt from the FTE limitations only for the duration of the federal funding for the employment related to the project and all salaries, benefits, and other expenses incurred related to employment must be paid from federal funds.
- (3) This Subsection (h) does not exempt any employees associated with existing projects that are 100 percent federally funded and included in the number of FTEs allowed in the agency's bill pattern.
- (4) Each state agency or institution shall notify the State Auditor, Comptroller, Legislative Budget Board, and Governor of FTEs exempted under this Subsection (h).
- (i) If a program is transferred from a state agency or institution of higher education, then at any time during the biennium, the Legislative Budget Board and the Governor may agree to reduce the number of FTEs paid from funds appropriated by this Act by the state agency or institution of higher education for one or more fiscal quarters to a figure below that indicated by this Act for that agency or institution.
- (j) The limitations on FTEs under this section do not apply to a state agency or institution of higher education in an instance of employment, including employment of a temporary or contract worker, if the employee is paid from appropriations of gifts and grants under Section 8.01 of this Article.

## GENERAL LIMITATIONS ON EXPENDITURES

(Continued)

- (k) The requirements of requesting and reporting under this section do not apply to a state agency or an institution of higher education with fewer than 50 FTEs allowed in the agency's or institution's bill pattern.

### **Sec. 6.11. Purchases of Postage.**

- (a) If the expenditures for postage by an agency, other than the Legislature or an institution of higher education, exceed \$4,000 for a fiscal year, the agency shall purchase postage only in accordance with §2113.103(c), Government Code.
- (b) The amount received by an agency as a refund of postage used by the agency shall be deposited in the fund to the credit of the appropriation from which postage for the agency is paid and is appropriated to the agency for postage use.

### **Sec. 6.12. Expenditures for State-Federal Relations.**

- (b) Prior to travel to the Washington, D.C. area, including any trip with a destination to the Reagan-National, Dulles, or Baltimore Washington International airports, state agency personnel shall inform the Office of State-Federal Relations regarding:
  - (1) the timing of the trip;
  - (2) the purpose of the trip; and
  - (3) the name of a contact person for additional information.
- (c) Under Subsection (b) the term "travel" is limited to only activities:
  - (1) involving obtaining or spending federal funds; or
  - (2) impacting federal policies.

### **Sec. 6.13. Performance Rewards and Penalties.**

- (a) It is the intent of the Legislature that appropriations made by this Act be utilized in the most efficient and effective manner possible to achieve the intended mission of each state agency and institution. In order to achieve the objectives and service standards established by this Act, agencies and institutions shall make every effort to attain the designated key performance target levels associated with each item of appropriation.
- (b) To support and encourage the achievement and maintenance of these appropriated annual performance levels, continued expenditure of any appropriations in this Act shall be contingent upon compliance with the following provisions:
  - (1) Agencies and institutions, in coordination with the Legislative Budget Board, shall establish performance milestones for achieving targets within each annual budget and performance period; time frames for these milestones and the related performance reporting schedule shall be under guidelines developed and maintained by the Legislative Budget Board.
  - (2) Agencies and institutions shall provide testimony as to the reasons for any performance variances to the Senate Finance Committee and the House Appropriations Committee, as determined to be necessary by those committees; assessments of agency and institution performance shall be provided to the committees under guidelines and procedures developed and maintained by the Legislative Budget Board.

## GENERAL LIMITATIONS ON EXPENDITURES

(Continued)

- (c) Upon a finding that an agency or institution has successfully met or exceeded performance expectations, or has failed to achieve expected performance levels, the Legislative Budget Board, and the Governor, may adopt a budget execution order, which may include but is not limited to, one or more of the following:
  - (1) Positive Incentives/Rewards - Increased funding, exemption from reporting requirements, increased funding transferability, formalized recognition or accolade, awards or bonuses, expanded responsibility, or expanded contracting authority; or
  - (2) Negative Incentives/Redirection - Evaluation of outcome variances for remedial plan, reduction of funding, elimination of funding, restriction of funding, withholding of funding, reduction of funding transferability, transfer of functional responsibility to other entity, recommendation for placement in conservatorship, direction that a management audit be conducted or direction that other remedial or corrective actions be implemented.
  - (3) The Legislative Budget Board may develop and maintain rules and procedures for the implementation of the above provisions.
  - (4) The Legislative Budget Board may request comments from the State Auditor's Office regarding performance penalties and rewards.

**Sec. 6.14. Bookkeeping Entries.** Should clerical or bookkeeping errors result in any monies being expended, transferred, or deposited into incorrect funds in or with the state treasury or any monies being cleared from a trust and suspense fund to other than the proper fund, such erroneously expended, transferred, deposited, or cleared monies may be transferred to the correct funds or accounts or trust and suspense account within the state treasury on request of the administering department with the concurrence of the Comptroller, and so much as is necessary for said transfer is appropriated.

### **Sec. 6.15. Accounting for State Expenditures.**

- (a) Notwithstanding the various patterns of appropriation established in this Act, the Comptroller shall account for the expenditure of funds appropriated by this Act in a manner that allows for the reporting of expenditures attributable to each strategy in each agency's respective Strategic Planning and Budget Structure as approved by the Governor and the Legislative Budget Board. The information shall be recorded and maintained systematically in the state accounting system in a manner that provides for the integration of the state's budget data and the state's accounting data and to facilitate the state's budget development process.
- (b) This section does not require the deposit into and subsequent disbursement of funds from the state treasury that relate to Texas Public Education Grants, or "local funds" defined in §51.009, Education Code, except for tuition and lab fees.

**Sec. 6.16. Fee Increase Notification.** None of the funds appropriated by this Act may be expended by an agency which increases the rate of a fee assessed by that agency unless the agency provides a notice to the payer of the fee that the fee rate was set by the agency or its governing board and not mandated by the Legislature.

**Sec. 6.17. Consolidated Funds.** Contingent on the enactment of legislation relating to the dedication of funds, the Comptroller, on approval of the Legislative Budget Board, may change an applicable agency's method of financing source name as provided in this Act to reflect changes made by the other legislation that affects the status of the funding source. No change in the amount of the appropriation would be affected by this change.

**Sec. 6.18. Demographic and Statistical Studies.** Before expending funds appropriated by the Act for the purpose of contracting for a consultant or other private assistance in performing a study required by the Legislature that includes statistical or demographic analysis of data, the agency conducting the study shall determine if the resources of the Texas Legislative Council or the Office of the State Demographer and the Texas State Data Center at The University of Texas at San Antonio are available to assist the agency in designing or conducting that component of the study.

## GENERAL LIMITATIONS ON EXPENDITURES

(Continued)

**Sec. 6.19. Cost Allocations.** For the purpose of more effective and efficient identification and allocation of costs, and to effect timely payments to employees and vendors, agencies may temporarily charge salary and/or operating costs to appropriations most applicable for the expense being incurred. Upon receipt of more specific information such as personnel-time allocation information for payrolls, or allocation of office supplies or other goods and services, agencies may reimburse the original paying appropriations by transfer from the appropriation to which the expenditure should have been charged. Such transfers must be accomplished within twelve months in a manner which records appropriate expenditures to the borrowing appropriation and negative expenditures to the lending appropriation. These transfers may be in summary amounts in a manner approved by the Comptroller. Each agency must maintain adequate detailed records to support summary transfer amounts.

### **Sec. 6.20. Use of Appropriations to Contract for Audits.**

- (a) Notwithstanding any other law, or other sections of this Act, none of the funds appropriated in this Act shall be used by the agencies or institutions of higher education to enter into a contract with an independent audit entity for audit services, except as specified by this section.
- (b) An agency or institution appropriated funds in this Act may use funds appropriated in this Act to:
  - (1) enter into an interagency contract with the State Auditor's Office (SAO) for the SAO to provide audit services to the agency or institution. At the discretion of the State Auditor and the Legislative Audit Committee, the SAO may conduct the audit or the SAO may enter into a contract with an independent audit entity to conduct the audit; or
  - (2) enter into a contract with an independent audit entity for the provision of audit services pursuant to §321.020, Government Code, if:
    - (A) the SAO has reviewed the scope of the proposed audit and has issued a written approval for the scope of the proposed audit, and
    - (B) the SAO has delegated the authority to enter into the proposed audit to the agency or institution, in the event the agency or institution does not have a specific statutory delegation of authority to enter into a contract for audit services.

**Sec. 6.21. An agency shall provide a copy of the plan to the Legislative Budget Board and the Governor.

**Sec. 13.09. Unexpended Balances.** Except as provided by §13.10 of this Article IX, any unexpended balances of federal funds existing at the beginning of this biennium or at the end of a fiscal year of this biennium are appropriated for use during this biennium for the original purposes of the appropriation.

### Sec. 13.11. Definition, Appropriation, Reporting and Audit of Earned Federal Funds.

- (a) **Definition.** Earned Federal Funds (EFF) are defined as all monies received in connection with each entitlement period of a federally funded contract, grant or program, excluding reimbursements under §13.06 of this Article which are not required by the governing agreement to be distributed thereon. Typically, EFF arise from recoveries of costs previously paid from a nonfederal fund source, indirect cost allocations, interest earned on federal funds, and minor sources such as the sale of fixed assets purchased with federal funds. These funds are received in connection with a federally funded program but are not required by the governing agreement to be distributed on that program. For state accounting purposes, EFF are defined as revenues collected from federal receipts and deposited into the state General Revenue Fund as Comptroller revenue object codes 3602, 3702, 3726, 3745, 3750, 3773, 3851, 3965, 3971 and 3972.
- (b) **Collected Revenue.** General Revenue in the amounts specified by year below is appropriated in agency bill patterns elsewhere in this Act and is contingent on collection of EFF revenues by the following agencies:

In the event that an agency specified above collects and deposits more EFF than identified above in fiscal year 2016, the agency is appropriated the additional amounts subject to the following conditions:
- (1) At least 30 days prior to budgeting or expending the EFF above the 2016 level above, the agency shall report the anticipated amounts and proposed use of these funds to the Legislative Budget Board.
  - (2) Notification shall include information regarding the need that will be served with the additional revenue.

- (e) **No Unexpended Balance Authority from Fiscal Year 2015 for Agencies.** The amounts of General Revenue above for all listed agencies exclude any unexpended balances of EFF that remain on August 31, 2015. - (j) **Contingency Appropriation for Additional Agencies.** In the event that an agency not identified above enters into an agreement with a federal agency which results in the receipt of EFF which are a new source of collections not anticipated for fiscal years 2016 and 2017, the affected agency shall furnish documentation of the new revenue to the Comptroller. If the Comptroller finds the information sufficient to support the revenue stream as a new collection, a finding of fact shall be issued and the additional EFF collections are appropriated subject to the notification requirements in Subsections (c) and (d).
- (k) **Audit.** The depositing and classification practices of Earned Federal Funds by agencies referenced above shall be subject to audit by the State Auditor's Office.

- (2) The restrictions, limitations, reporting, and approval requirements of this §14.03 do not apply to a change in the method of finance which might result as a part of a transfer transaction involving a capital budget item of appropriation, provided that the transfer transaction otherwise complies with the requirements of this §14.03 and the other provisions of this Act.

  - (g) Appropriations restricted to capital budget purposes and not identified in a "Capital Budget" as being for lease payments to the master lease purchase program (MLPP) or for other lease-purchase payments may be utilized to make lease payments under MLPP or for other lease or installment payments only if the agency to which the appropriation is made provides a report to the Comptroller specifying the sum of the lease payments to be made during the biennium for the Capital Budget item being acquired. The Comptroller shall reduce the appropriation made by this Act for the Capital Budget item in an amount equal to the difference between the appropriated amount and the sum of the lease payments for the biennium and deposit that amount into the unappropriated balance of the original funding source. This section is intended to serve as a means for quickly, effectively, and efficiently transferring appropriations in the event of a disaster. This §14.04 provides an exception to any other provision of this Act which might otherwise limit transfers of appropriations such as by imposing a limit on the amount of a transfer or which might otherwise limit transfers of appropriations by causing a delay in making a transfer because of the need to take actions such as preparing reports or obtaining approvals prior to transferring appropriations necessary for responding to a disaster. No part of this §14.04 shall be read to limit, modify, or abridge the authority of the governor to proclaim an emergency, disaster, or martial law or exercise any other powers vested in the governor under the constitution or other laws of this state.

- (c)
  - (1) Notwithstanding other provisions in this Act, agencies shall transfer to SORM seventy-five percent (75%) of their assessed allocation which includes amounts for workers' compensation coverage for their employees from funding in the same proportion as their expected payroll funding, including General Revenue Funds, dedicated General Revenue Fund accounts, Other Funds or local bank accounts and the agencies' proportion of SORM's costs to administer workers' compensation payments and other statutory obligations contained in A.1.1, Risk Management Program and A.2.1, Pay Workers' Compensation.
  - (2) Not later than May 1 of each fiscal year, SORM shall determine, based on actual costs since the beginning of the fiscal year and other estimated costs, the remaining assessment due from each agency. SORM shall prepare a statement reflecting the remaining assessments due from each agency and present the statement to the Comptroller. Each agency shall transfer to SORM the remaining assessed allocation which includes amounts for workers' compensation coverage for their employees from funding in the same proportion as their expected payroll funding, including General Revenue Funds, dedicated General Revenue Fund accounts, Other Funds or local bank accounts and the agencies' proportion of SORM's costs to administer workers' compensation payments and other statutory obligations contained in A.1.1, Risk Management Program and A.2.1, Pay Workers' Compensation.

Any additional general revenue funds will be utilized only for the purpose of temporary cash flow and must be repaid upon receipt of the following year's assessments in accordance with procedures established by the Comptroller. All transfers from and repayments to the General Revenue Fund shall be reported by SORM to the Legislative Budget Board within 30 days of the transfer.

## **CONTINGENCY AND OTHER PROVISIONS**

### **Sec. 18.01. Contingency Appropriation: Water Resource Management Account.**

- (a) Amounts appropriated in this Act out of the Water Resource Management Account No. 153 include: \$56,152,049 in fiscal year 2016 and \$55,864,649 in fiscal year 2017 to the Commission on Environmental Quality; \$2,648,770 each fiscal year to the Public Utility Commission (PUC); and \$509,054 each fiscal year to the Office of Public Utility Counsel (OPUC). These appropriations are contingent on available balances in and revenues to the Water Resources Management Account No. 153 being sufficient during the 2016-17 biennium to cover the appropriations and any additional costs associated with employee benefits for FTEs paid out of the Water Resources Management Account (estimated to be \$17,557,912 for the biennium). In the event that available funds out of the Water Resources Management Account No. 153 are insufficient to meet appropriations in this Act and related benefits costs, the TCEQ shall increase rates for fees deposited to the Water Resources Management Account No. 153 for which it has rulemaking authority, including the Water Quality Fee established in Water Code, Chapter 26 and the Public Health Service Fee established in Health and Safety Code, Section 341.041, at a level to ensure that sufficient balances and revenues are available.
- (b) Contingent on enactment of legislation by the Eighty-fourth Legislature, Regular Session, that transfers a portion of the proceeds of fee revenues deposited to the Water Resource Management Account No. 153 in Water Code, Section 5.701 (n) to the General Revenue Fund:
  - (1) appropriations to the PUC in Strategy A.2.1, Utility Regulation, are increased out of the General Revenue Fund by \$2,648,770 each fiscal year, and appropriations are decreased out of the Water Resources Management Account No 153 by \$2,648,770 from the Water Resource Management Account No. 153 each fiscal year; and
  - (2) appropriations to the OPUC in Strategy A.1.1, Participation in cases, are increased out of the General Revenue Fund by \$356,338 each fiscal year and appropriations are decreased out of the Water Resources Management Account No 153 by \$356,338 from the Water Resource Management Account No. 153 each fiscal year; and
  - (3) appropriations to the OPUC in Strategy B.1.1, Utility Projects, are increased by \$152,716 out of the General Revenue Fund and appropriations are decreased by \$152,716 out of the Water Resource Management Account No. 153 each fiscal year.
- (c) Out of amounts appropriated elsewhere in this Act, the TCEQ shall also conduct a study to determine the level of agency workload related to each group of entities paying fees deposited to the Water Resource Management Account No. 153 and the relative benefit each fee payer group receives from agency water quality permitting, water quality regulation, and safe drinking water programs. Using this analysis, the agency shall develop a methodology to determine the appropriate level of rates for water-related fees that would generate revenue in proportion to agency workload and fee payer benefits. The TCEQ shall base any future fee rate modifications made to ensure sufficient revenues to the Water Resource Management Account on the findings of that study, provided such fee rate changes do not conflict with any statutory provisions relating to water-related fees or water-related programs, and provided such fee rates do not exceed any maximum levels set in statute.

### **Sec. 18.02. Appropriation for a Salary Increase for General State Employees.**

- (a) As used in this section, "salary increase" shall mean a two and a half percent (2.5%) increase in annual salary, to begin on September 1, 2015.
